Notice to Tenants

The Medina Valley Irrigation Company has irrigable lands for rent at \$7.00 an acre, with \$1.00 an acre additional for farms with improvements thereon; and water at \$5.00 per acre. If you want to be sure of making a crop in 1921, rent an irrigated farm. It is good insurance. We encourage a good tenant to rent large tracts and farm them by sub tenants under his personal control. If you want irrigated land, make your application now in person to R. U. Atkins, Supt., Natalia, Texas. 4-tf.

Hondo is to have a big celebration on Nov. 11. Have you heard about it? If not, inquire of members of the American Legion.

Next Saturday's Primary.

Next Saturday, August 23th, is the date set for the second primary election and every Democrat should make it a point to attend the election and express his choice as to who he wishes to guide the ship of state for the coming two years. The contest now being waged for the governorship of Texas by the opposing candidates and their partisans is one of the most vigorous ever staged in Texas, each side realizing that the next governor of Texas will be named at next Saturday's primary.

It is to be hoped that every polling place in the county will be opened and it is to be further hoped that every one claiming affiliation with the Democratic party will participate in the primary. There is absolutely no use to sulk and stay away from the polls because of dissatisfaction with the primary election law; it is the law, is liable to remain the law for many years to come, and by remaining away from the polls you are simply playing into the hands of the slick political ducks you are anxious to get rid of. It is a duty you owe to yourself and your state to express your choice in the selection of state officers.

It is also to be hoped that election officers will exert themselves in making more prompt returns of next Saturday's election than they did in the July primary. The law requires three separate returns, one to be made to the chairman of the Democratic Executive Committee, one to the county clerk, the other copy to be retained by the judge holding the election. The law contemplates that these returns should be made promptly and any election official who does not intend to promptly report the result at his box should refuse to act and step aside for a more energetic man. Next Saturday's election promises to be one of the closest ever held in Texas and it is within the possibilities that a small box in Medina county may be the determining factor in naming the next governor of Texas. Make your returns promptly please.

Andrew Scheidemantel Dead.

Relatives here received a telegram Monday stating that Andrew Scheidemantel had died in Chicago of heart disease, and would be buried in Kansas City, Missouri, on Thursday, August 19th. This telegram came from his widow and contained no further details.

Deceased was the eldest son of the late Chas. Scheidemantel and will be remembered by many of the readers of this paper. He is survived by his widow, one sister, Mrs. C. B. Watters of San Antonio, and four brothers, Charles, Ed. and Ernest of Seattle, Washington, and Louis W., of Manila, P. I.

Live Stock Sanitary Commission of Texas.

Fort Worth, Texas, August 16, 1920. Circular No. 60—Quarantine.

TO WHOM IT MAY CONCERN:

WHEREAS, it has been determined by inspection by an authorized inspector of the Live Stock Sanitary Commission that the contagious disease known as Anthrax exists among the live stock in Frio County, and whereas by reason of said infection Frio County was quarantined by the Live Stock Sanitary Commission.

And whereas Medina County is apparently free of the contagious disease among live stock known as Anthrax.

And whereas it is deemed advisable to protect Medina County from infection from Frio County, the following order is hereby issued to take effect on and after the 18th day of August A. D. 1920:

It shall be unlawful for any cattle, horses, mules, asses, sheep, goats, or hogs to move or be moved from the said Frio County unless such live stock are accompanied by a permit or certificate issued by an authorized inspector of the Live Stock Sanitary Commission. All persons, companies and corporations are hereby forbidden to move any of such live stock in violation of this order and all owners and caretakers are hereby forbidden to permit the movement of such live stock in violation of this order.

This order shall be effective on and after the 18th day of August A. D. 1920.

Witness our hands at Fort Worth, Texas, this 16th day of August A. D. 1920.

LIVE STOCK SANITARY COMMISSION.

THE INCREASING BUSINESS of this BANK is an indication that the service it renders is satisfactory. If not already a patron, may we not have your account? We give our customers as liberal accommodations as is consistent with sound banking.

Dr. O. B. Taylor is the recipient of the first victory medal to be received by an ex-service man, in this county, so far as we are informed. The medal is in the form of a pendant, one side bearing a vignette of the American eagle, the reverse bearing the names of our allies in the great conflict across the American colors to which the pendant is attached is enumerated the major actions in which the recipient saw service, in this particular case St. Mihiel, Meuse-Argonne and Defense Sector showing on the three bands across the colors. The design of the medal is artistic and each ex-service man with an honorable discharge is entitled to one. Dr. Taylor's medal is on display at Fly & Mercer's drug store and ex-service men are invited to call and see it. Dr. Taylor has the necessary blanks on which to make applications and will cheerfully assist any ex-service man desiring a medal to procure one.

Tractor Demonstration August 28th

DON'T buy your tractor until you see the RUMLEY OIL-PULL. This is a Tractor that has stood the test of time and the first tractors built ten years ago are still in the game doing the work that new ones today are not doing. Guaranteed to burn kerosene successfully under all conditions—a written guarantee backed by a Thirty-five Million Dollar Corporation. Does that mean anything to you? Oil cooled, no evaporation, no freezing, no fan belt. The harder you pull the cooler she runs. Fill your radiator once a year with low grade oil. Heavy duty, low speed, long life motor built to U. S. naval specifications, Hyatt roller-bearings in transmission and rear axle. Bosch high tension magneto—the best magneto made—and many other features not found in the ordinary tractor.

THE ALBERTS MOTOR SALE COMPANY of San Antonio will demonstrate the Rumely Oil Pull on DR. BRADLEY'S FARM, one mile east of Hondo, on August 28th, at 1:00 p. m., if the weather permits.

We have owners in this and adjoining counties that can tell you something that will open your eyes. Ask MR. EMIL MECHLER of Lacoste. He has an Oil Pull.

Have you investigated the upkeep and cost of operation of the tractor you intend to buy? If you have and you are satisfied, come let us show you what our official re-

cords show, not mere claims.

A woman's fondest hope is to stay young. She often resorts to paints, powders and cosmetics to hide her years. Some women pay large sums to so-called "Beauty Doctors" in the belief that money will buy youth. Others wear girlish dresses, thinking they can fool the world about their age. But no one is deceived. The more you try to hide your age, the more it shows.

There is but one thing that holds old age back, and that is health. Sickness and weakness bring old age early in life. Dr. Pierce's Favorite Prescription is a building-up medicine for women. It makes them healthy and strong when they suffer from women's troubles. It keeps them looking young by keeping them well. It is a woman's tonic for the frail, the delicate and those who are nervous, dizzy and who have backache and dragging pains. Favorite Prescription is altogether vegetable and without a particle of alcohol. It is safe to take. Try it now. In tablet or liquid form at all druggists, or send 10c for trial package of the tablets to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y.

Austin, Texas.—In a pamphlet sent to all parts of Texas recently, the Texas Public Health Association advocates a thorough physical examination once a year for every person in the state, as a great aid in the prevention and cure of tuberculosis.

The pamphlet tells of the symptoms that might suggest tuberculosis, as follows: Cough lasting more than three weeks, continued tired feeling, indigestion with cough that lasted a long time, pain in chest for several weeks, afternoon fever, and loss of weight.

"No medicine can cure tuberculosis," said George F. Granger, field secretary of the Texas Public Health Association. "Supervision by a good physician, rest, fresh air, proper food and cheerfulness will arrest almost any case of the disease which is not too far advanced."

"Tuberculosis may be prevented by having a medical examination once a year in order that any slight trouble may be discovered before it becomes serious; fresh air at all times; nourishing foods such as milk, eggs, cereals, bread and butter and fruit; and proper exercise with a well regulated life to strengthen the body against diseases of all kinds."

The Association distributed over 1,000,000 pieces of literature last year, telling of the prevention and cure of tuberculosis. It is this year continuing the work of educating the people concerning the disease.

An Old Fault Finder.

An irritable and fault finding disposition is often caused by indigestion. A man with good digestion and bowels that act regularly is usually good natured. When troubled with indigestion or constipation take Chamberlain's Tablets. They strengthen the stomach and enable it to perform its functions naturally. They also cause a gentle movement of the bowels.

More than 100 cases of yellow fever cases are reported to exist in Vera Cruz. Dr. Carl Michel of the U. S. Public Health Service is in charge of cleaning up the city.

Granulated Sore Eyes Cured.

"For twenty years I suffered from a bad case of granulated sore eyes," says Martin Boyd, of Henrietta, Ky. "In February, 1903, a gentleman asked me to try Chamberlain's Salve. I bought one box and used about two-thirds of it and my eyes have not given me any trouble since."

Increased consumption of raisins in the United States since the advent of prohibition is believed to account for the 1,400 per cent increase in imports of that commodity from Spain during the first six months of 1920. Nearly 8,000,000 pounds were exported from Malaga to the United States up to June 30, according to the department of agriculture's bureau of markets.

A Great Remedy.

The merits of Chamberlain's Colic and Diarrhoea Remedy are well known and appreciated, but there is occasionally a man who had no acquaintance with them and should read the following by F. H. Dear, a hotel man at Dupuyer, Mont. "Four years ago I used Chamberlain's Colic and Diarrhoea Remedy with such wonderful results that I have since recommended it to my friends."

Mr. and Mrs. Roland Gaines and Miss Willa Mae Gaines and Miss Pauline Montier of Hondo were in Sabinal a little while Wednesday evening. —Sabinal Sentinel.

Associated Press reports in the daily papers give the following version of the aim of the Bolshevik army in Poland according to remarks of officials: As soon as the Polish war has been finished, a note will be sent to Berlin demanding permission to transport troops across Germany for the French campaign. Upon refusal of this request, which is taken for granted, a revolution will be instituted in Germany, the success of which the Bolsheviks asserted they were prepared to assure by force of arms. With these ends in view, the Russian soldiers, who have been told that all wars shall cease with ultimate victory over the Poles, are being subjected to a vigorous propaganda which declares that Frenchmen will be shot on sight, but that the Germans are friends who soon will become comrades of the Bolsheviks. Their leaders declare that within three weeks they will be in complete control of Poland.

What is Best For Indigestion?

Mr. A. Robinson of Drumquinn, Ontario, has been troubled for years with indigestion, and recommends Chamberlain's Tablets as "the best medicine I ever used." If troubled with indigestion or constipation give them a trial. They are certain to prove beneficial. They are easy to take and pleasant in effect. Price 25 cents.

Miss Annie Callahan and Mrs. Margaret Ward of Houston are visitors this week at the Buck ranch. —Bandera New Era.

Otto Bippert was at Hondo on business last Wednesday and Thursday. —Lacoste Ledger.

INDIGESTION

If you are ever troubled with indigestion, Chamberlain's Tablets will do you good. They strengthen the stomach and enable it to perform its functions naturally. There are hundreds of people who have been restored to health and happiness by the use of Chamberlain's Tablets. When you feel dull and languid after eating you may know that your digestion is faulty, unless you have eaten more than you

should. Belching, sour stomach and bloating are symptoms of indigestion and are relieved by taking Chamberlain's Tablets as directed. Indigestion is usually accompanied by constipation and is aggravated by it. Chamberlain's Tablets cause a gentle movement of the bowels, relieving the constipated condition. Chamberlain's Tablets are also most excellent for biliousness. Sold everywhere at 25c.

Attention, Farmers.

Austin, Tex., Aug. 6, 1920.

To officers of Institutes and other farmers and business men interested in better methods of marketing cotton, livestock and other farm products.

Cooperative marketing and other subjects of vital importance to the agricultural interests of the immediate section as well as of the State will be given consideration.

The co-operation of all parties, interested stockmen, farmers, and business men is cordially invited to make these meetings well attended and profitable.

A Traveling Man's Experience.

You may learn something from the following by W. H. Ireland, a traveling salesman of Louisville, Ky. "In the summer of 1888 I had a severe attack of cholera morbus. I gave the hotel porter fifty cents and told him to buy me a bottle of Chamberlain's Colic and Diarrhoea Remedy and to take no substitute. I took a double dose of it according to the directions and went to sleep. At five o'clock the next morning I was called by my order and took a train for my next stopping place, a well man."

Life Was a Misery

Mrs. F. M. Jones, of Palmer, Okla., writes: "From the time I entered into womanhood . . . I looked with dread from one month to the next. I suffered with my back and bearing-down pain, until life to me was a misery. I would think I could not endure the pain any longer, and I gradually got worse. . . Nothing seemed to help me until, one day, . . . I decided to

TAKE

CARDUI

The Woman's Tonic

"I took four bottles," Mrs. Jones goes on to say, "and was not only greatly relieved, but can truthfully say that I have not a pain."

"It has now been two years since I took Cardui, and I am still in good health. . . I would advise any woman or girl to use Cardui who is a sufferer from any female trouble."

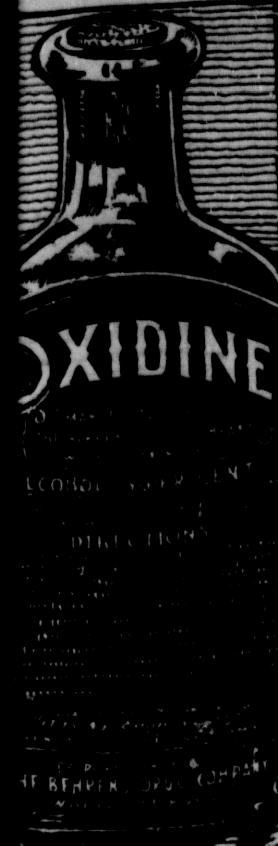

If you suffer pain caused from womanly trouble, or if you feel the need of a good strengthening tonic to build up your run-down system, take the advice of Mrs. Jones. Try Cardui. It helped her. We believe it will help you.

Condemns Vessels' Straight Stems.

Capt. A. H. F. Young, who is one of the best-known shipping officials of the British board of trade, has recently caused considerable discussion in this country by his remarks on the subject of ship designs and his assertion that the straight stem, which is found in the most modern cargo vessels, had been the cause of greater loss of life at sea than submarines.

According to Captain Young, the origin of this stem was the desire to reduce the cost of construction and he asserts that so long as the type of stem was retained the serious effects of collision at sea would continue to be great. He adds that if an act were passed abolishing the straight stem and making it compulsory that the stem should recede to an angle of, say 15 degrees, "not one ship in a hundred in a collision would be pierced below the waterline."

Dreams Concerning Watches.

To dream that some one gives you a watch shows that you will live a long life, but if you dream of giving a watch to some one else it is a sign of lost time for you. To dream of finding a watch is a sign to you that the course you are following is right. Losing one is a good dream, too, for it means you will receive some money. And to buy one promises you success in what you are trying to do.—Chicago Herald and Examiner.

Shaving Shortens Life?

Dr. Arthur Macdonald of Washington, D. C., believes that the habit of shaving increases neuralgic and other troubles of the face and tends to lessen the chances of life. He writes to the Medical Record (New York) asking other physicians if they share this belief and if they will supply him with data from their experience that will tend to confirm it.

South America's Undeveloped Lands.

It is claimed for South America that it has greater undeveloped resources than any other continent. Its soil can produce any crop grown on the earth and its mines of gold and silver and coal have been scarcely touched.

A self-made man and a tailor-made man can both learn something from each other.

Things don't turn up in this world until somebody turns them up.—Daniel Webster.

In estimating the success of a life, we must take into account what has been overcome.

Real humility never made its appearance in the world until the first father of six girls arrived.

If your good nature has to be bolstered up by every member of the family, it is not worth much.

Improved Living Conditions.

Perhaps, as the luxury taxes indicate, not far from \$8,500,000,000 have been spent on indulgence since the armistice; yet there are signs that the masses are not wasting all their increased income. Living conditions for the laboring man have improved, and he will never go back to the conditions of the past. A Cincinnati company in the iron trade reports that there is a demand today for 12 bathtubs where there was a demand for one ten years ago. Certainly that is an indication of better living conditions and a sign of progress in the forward march of civilization.—World's Work.

INS OF LOST CONTINENT

by of Fossils Has Led Scientists
to Believe It Existed in the
Caribbean Sea.

Capt. H. E. Anthony, associate curator of the department of mammals of the American Museum of Natural History, back from an exploration trip through the West Indies, brought with him an assemblage of fossil mammals, ancient types and strange ancestry, and recently in Porto Rico and Cuba, which indicate the possibility that at the time the West Indies had a much larger mammal habitation than to-day.

The fossils strongly suggest, if not the existence of some mainland connection far back in the geologic age, at least the union at some time of the Great Antilles into a large titilean continent. This continent, it existed, must have lain in the Gulf of Mexico and the Caribbean Sea, with the longer axis east and west, and must have been an important land mass, according to Captain Anthony, with large rivers and mighty mountain ranges rising as high as 20,000 feet or more above sea level.

This theory rests on Spencer's studies and charts, Spencer having concluded from the conformation of the sea that in tertiary times there must have been an elevation of this surface of somewhat between a mile and a half and two and a half miles. The ridges of the sea bottom seem to follow out the general direction of the mountain ranges at present existing on the islands, he derived the theory that the undersea ridges were originally parts of the same system.

As the island ranges have an altitude of from 7,000 to 8,000 feet, the mountains of the now disappeared continent would have been something like 20,000 feet high. The channels on the undersea surface, running at right angles to the ridges, seem to have been cut by great rivers flowing down the mountain sides.

You Do More Work.

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

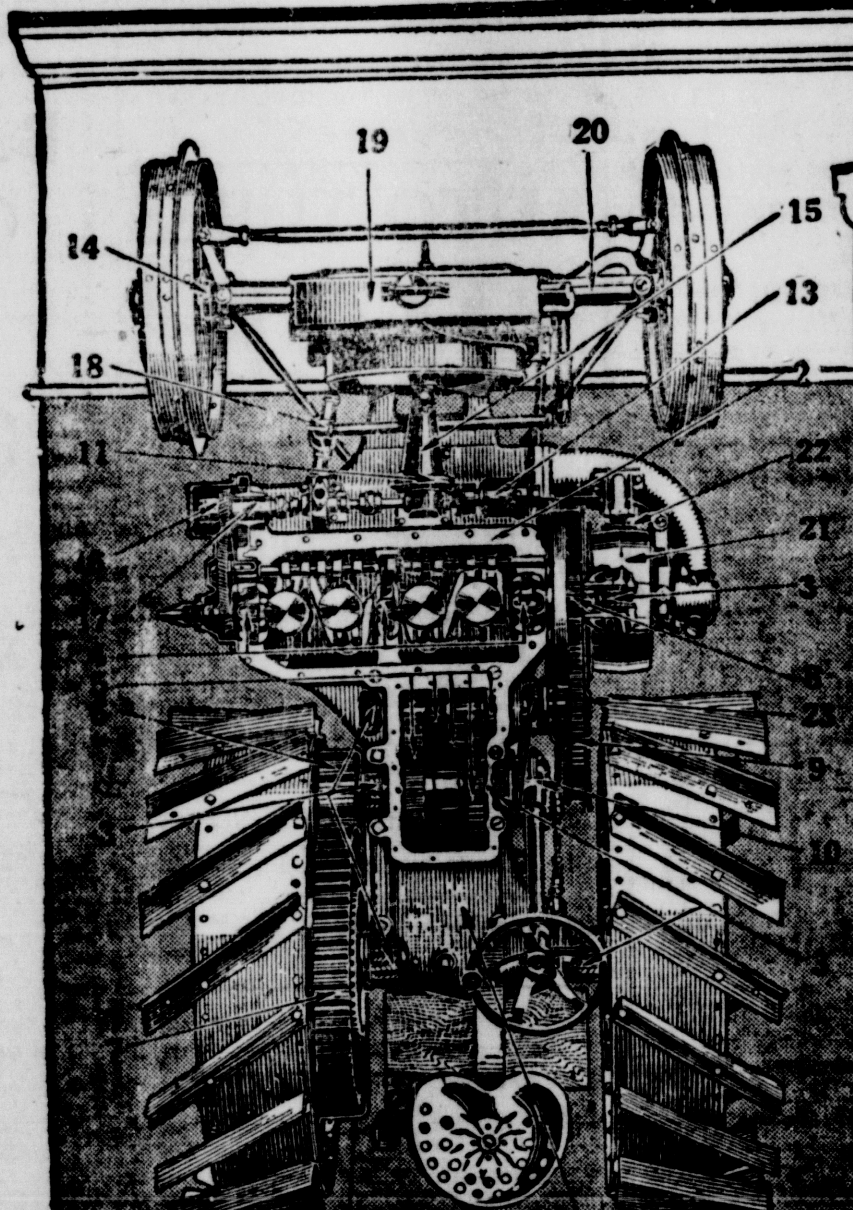

The Strength-Creating Power of **GROVE'S TASTELESS CHILL TONIC** has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get **GROVE'S TASTELESS CHILL TONIC** when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

CASE

KEROSENE TRACTORS

Why You Will Prefer This Case 15-27

THE view and description of the chassis of the Case 15-27 Kerosene Tractor afford convincing proof that one should study design and materials before deciding which tractor to buy. Checking over and comparing the several tractors you are considering will guide you in a satisfactory, money-saving purchase.

What we offer on this page is a very brief outline. Complete specifications, illustrations and description are contained in our catalog of Case Kerosene Tractors, which will be sent gladly on request. Every prospective owner of a tractor should have a copy.

This Case 15-27 is conservatively rated. While rated at 15 horsepower on the drawbar it can deliver more than 18. While rated at 27 horsepower on the belt, it can deliver 33.

Thus we establish a reserve for emergencies. This tractor pulls three plows in hard plowing or four plows under favorable conditions.

With reasonably good footing, this tractor delivers a constant pull of 3,000 pounds at the drawbar. Its reserve power makes it possible to deliver 3,600 pounds pull, or over. Compare this reserve with others of similar rating.

At belt work, this tractor will drive a Case 26x46 Thresher, with wind-stacker and feeder, or other machinery requiring similar power. Its 4-cylinder, valve-in-head motor, governor controlled, delivers a steady flow of power.

Uniform speed is absolutely necessary for successful threshing and other belt jobs. Be sure that the tractor you buy is as efficient for belt work as it is at the drawbar.

Note that the motor is set crosswise, with pulley mounted directly on the crank shaft and on the same side as the steering gear. This arrangement makes it easier in "lining up" with belt-driven machines. It saves time.

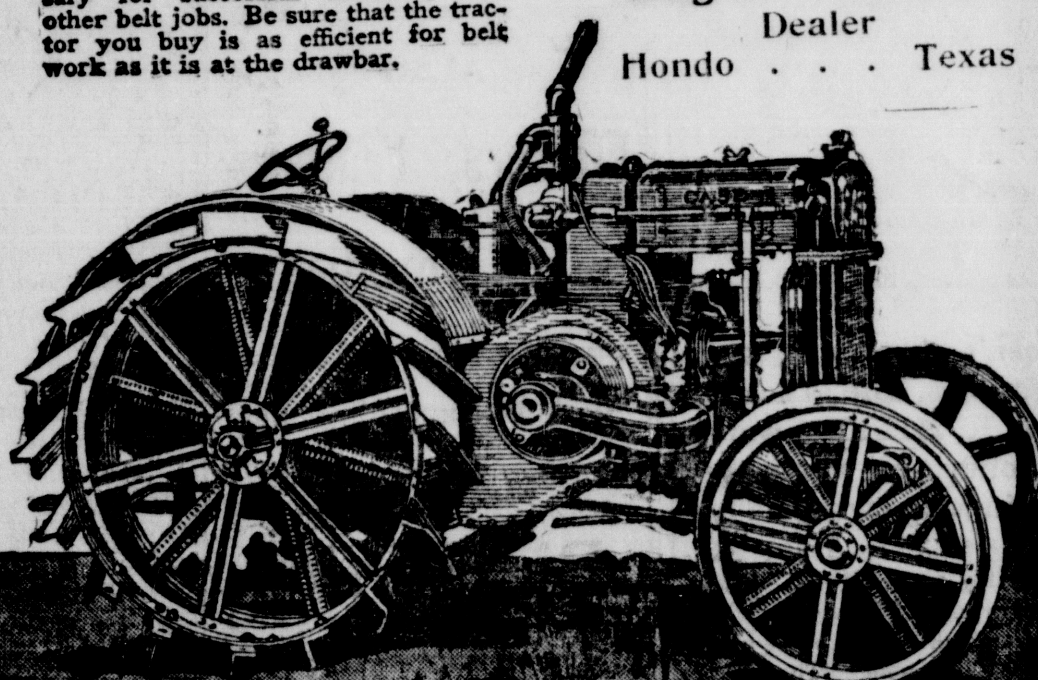

As you study this 15-27, dozens of superiorities will appeal.

It is very economical in the use of kerosene. All traction gears are cut steel, enclosed and running in oil. Its perfected air washer prolongs the life of the motor. Hyatt Roller Bearings throughout. Complete accessibility to all parts is afforded by quickly removable covers.

Call on us for a complete description of this and other Case Kerosene Tractors. Familiarize yourself with our latest and best. Become a real judge of tractor values.

Again soliciting your support for the office of district clerk, Mr. August Kempf's announcement will be found in the proper column of today's Anvil Herald. He has long served the people of Medina County in official capacities and his uniform courtesy both as an official and friend has made him one of the most popular men in the county as his long service testifies. In fact, so satisfactory has been his service that election after election passes and no one ever thinks of opposition and Mr. Kempf is elected to succeed himself. If good service, cheerfully rendered is to be rewarded then there is but little doubt that he will again be honored by the voters of Medina county on the 2nd day of November by a unanimous endorsement.

George A. Schuehle, one of the most prominent and popular young men of Medina county has entered the race for tax collector and his formal announcement will be found in today's paper. He is a native of Medina county and has spent his entire life among the people he seeks to serve. At the outbreak of the great world war he was serving the people of Precinct No. 1 as public weigher very acceptably, but answering the call of his country he resigned his office and donned the uniform, being among the first volunteers from this county, and saw a great deal of overseas service. There is no question as to his qualifications, and we ask the voters of the county to consider Mr. Schuehle's name on election day.

In the proper column of today's paper will be found the announcement of Mr. Joe Ney, who seeks to succeed himself as tax collector of Medina county. He is one of the best known men in the county, has faithfully served in various official capacities and from his past record as an official can be gauged his future conduct of the office should he again be honored with the office he seeks. He is perfectly familiar with the routine of the office and undoubtedly the voters of the county will give his claims to the office serious consideration on election day.

Twenty-five rattlesnakes at one killing is a pretty good record, and that is just what Mr. John Neuman accomplished near Dunkley Tuesday morning. He found this family of snakes snugly domiciled in an old hollow live oak stump and he immediately proceeded to carry out the biblical injunction to bruise the heads of the serpents, and when he concluded his labors twenty-five menaces to the lives of both humans and animals had been forever removed. Mr. Neuman explained that his exploit wiped out a happy family—an old mother rattler and her twenty-four promising offspring—and their timely passing has caused nothing but relief to the entire neighborhood.

BODY OF ORMER LOCKLEAR TO BE
BURIED AT FORT WORTH.

Fort Worth, Texas, Aug. 7.—The
body of Ormer Locklear, former
aviator and premier stunt flyer, who
was killed Monday when his plane
crashed at Los Angeles, arrived
here this afternoon, accompanied by
airplanes which had met the train.
The body was met at the station by
a guard of honor of the American
Legion and a platoon of the city
police.

The body was taken to a local un-
dertaker's, where it will lie in state
until the funeral tomorrow after-
noon.

The funeral services will be con-
ducted from the Mueky Memorial
Methodist Church. An aerial escort
of four army planes will drop flow-
ers on the funeral cortege.—Associated
Press Dispatch.

Children Cry for Fletcher's CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are the experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA
Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. 40-Cent Gasoline Forecast.
Washington, Aug. 14.—Gasoline will cost more than 40c a gallon throughout the United States by Sept. 15, officials here believe, unless refiners succeed in persuading joy riders to curtail consumption.
Officials now are studying a tentative proposal of big refiners to cut down consumption through an informal system of rationing, to apply in all forty-eight states. The system would be applied entirely by refiners and be without government authority, though it probably will have the moral backing of government officials.
Under the system as now outlined, big refiners would agree to limit to a certain amount their sales to each state. Dealers inside the state then would be compelled to adopt some informal plan of rationing gas among their customers.
Approximately 10,000,000 owners of automobiles, power boats and airplanes would be affected by the rationing system.

The gasoline situation now is more serious than it has been for months. Consumption is reported as between 13,000,000 and 14,000,000 gallons daily. Production, however, is running approximately 2,000,000 gallons below consumption. This difference represents the amount by which the reserve supplies are being drawn off. Reserves now are reported as lower than at this time last year, despite the fact that at the beginning of spring the stores were the biggest in years.

Gasoline is selling at near 40c a gallon in some parts of the country. Part of California recently was totally without it, except for a small supply which was rationed among doctors and trucks carrying food and milk.
Gasoline producers told government officials it is practically impossible to further speed up refining. Production now is being conducted at top speed and raw oil supplies are barely coming in fast enough. Many fields in the Southwest are beginning to play out and parts of the Texas fields are making a bad showing.

No new fields are being discovered, although thousands of prospectors are tapping "wildcat" territory. Hundreds of applications have been received by the interior department for permission to tap lands released for drilling under the oil land leasing law. During one recent week nearly 15,000 wells were being drilled.
Gasoline exported from the United States to England is bringing unheard of prices in London, where it recently sold for nearly \$1 a gallon.
Gasoline and oil men here grow excited when they talk about the situation, especially experts who have to do with placing government orders. These men are extremely bitter against the public because of what they call an overindulgence in joy riding.

FOREMAN TELLS ABOUT TROUBLE.

Had Suffered For Twenty Years —Gained Eleven Pounds And Is Restored To Health.

"For 2 years before I began taking Tadiac my health was so bad I lost two or three hours from work every day, but since taking five bottles of the medicine I am in as fine health as I ever was in my life," said C. H. Melton, construction foreman for the Western Union Telegraph Co., living at 3336 Tracy avenue, Kansas City, Mo.

"I had stomach trouble and nervous indigestion for twenty years," he continued. "Five years ago I got in such bad shape that everything I ate caused me terrible suffering from gas and at times I could hardly breathe. I had a stuffy feeling all the time and was so constipated I had to keep taking laxatives. My head ached sometimes like it would simply burst and I became so weak and run-down it looked like I would have to give up my work entirely."

"A friend of mine had tried Tadiac and recommended it so highly I decided to take it, too, and, believe me, I found it to be a real medicine. In three days time my appetite began to improve and my stomach got better. I kept on improving rapidly and now I eat anything I want, have gained eleven pounds and never have stomach trouble, headaches or constipation any more. I never felt better in my life and it is a real pleasure to recommend Tadiac."

Tadiac is sold in Hondo by W. H. Windrow; in Castroville by Joseph Courand & Co.; and in Dunlay by Louis A. Baby.

Youngsters' Hard Luck.
Charles was watching his grandmother fry doughnuts, and she, fearing he would get burned, warned him several times to keep away. Finally: "Charles, what will I do if you don't mind me?"
Charles heaved a sigh. Doughnuts smell so good! "Grandmother," he said, "big folks have to mind, don't they?"
"Certainly, Charles."

"Well, big folks have to mind just God. I think it's pretty hard on us little ones; we have to mind big folks and God, too."

Mint Coining Gold Again.
For the first time in four years the coining of gold was resumed during May at the Philadelphia mint, the output having been 15,000 double eagles with a value of \$300,000. Though working on one shift of eight hours, instead of two, the mint also turned out 8,890,000 pieces of minor coins of the value of \$1,427,990. This included 340,000 half-dollars, 2,188,000 quarters, 4,000,000 dimes and 3,399,000 pennies. In addition 11,040,000 pieces of silver and nickel were turned out for the republic of Cuba.

No Worms in a Healthy Child
All children troubled with worms have an unhealthy color. It indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

UNITED TO BANISH GLOOM

English Business Men Form Association in Which Only Smiling Faces Are Welcome.

Brighton men who travel to London every day to business have formed a "traveling colony of good cheer." "Some of us grew so tired of traveling with stiff, unsmiling faces," Mr. Johnson, a London merchant, told a reporter, "that we determined to admit to our compartment only those with cheerful faces."

"Smile!"
"We have two placards, one for each window of the compartment. On these the traveler reads:

"Only those who are cheerful travel in this compartment. If you cannot smile you will be out of place."

"It has been very effective. Glum faces appear, read the notice and, wedded to gloom and distrustful cheerful company, pass on and enter another carriage. All the cheerful spirits come to our compartment and form the jolliest traveling colony ever known."—Continental Edition of London Mail.

Samoans Want Hard Candy.
With a total population of 31,000 in western Samoa, of which less than 1,000 are whites or half-castes, the demand in confectionery is mainly for hard candies, better known locally as boiled lollies, retailing at 25 cents a pound. These are small varieties, differing in color and flavor, and imported in five-pound tins. Lozenges are little known. Taffies and chocolates suffer from the extreme humidity of the climate, which makes necessary their being imported in sealed metal tins, retailing at from 50 to 75 cents a pound.

Two Birds With One Stone.
A little fellow sat on a doorstep crying bitterly. Passersby tried to console him, but without avail. Presently a sympathetic old lady came along. "What's the matter, little one?" she asked.
"Got my new trousers covered with dust," sobbed the boy.
"But they're clean now, dear," continued the lady.
"I know they are," waited the lad.
"Then why do you cry, child?"
"Cos mother wouldn't let me take 'em off when she beat the dust out."

Liberia May be Auto Market.
About two years ago four American automobiles were imported into Liberia for the purpose of stimulating road construction. Considerable interest was aroused among the people and government officials, and with better financial prospects in view for the republic, it is believed that in the near future a comprehensive system of road construction will be begun. This will create a market for American motor vehicles.

CAME BACK FOR INFORMATION

Boy's Desire for Perfect Accuracy Probably Was Not Properly Appreciated by His Employer.

"John!" roared the shopkeeper. "Here, sir," replied the lad, as he appeared from behind a pile of boxes. "Take this parcel and run off to the station!" ordered his employer. "You'll have to hurry. The next train goes in 10 minutes and I've promised the customer to have his order out this afternoon. And, John—he fumbled in his pocket—"you'll be out late so here's a quarter for your fare and a quarter for your supper."

With a sigh of relief, he saw the boy disappear round the corner. At the rate the lad was going he'd catch the train all right. But 10 minutes later his jaw dropped as he saw the boy coming casually back.

"Why, what's the matter?" he gasped furiously.

"P-p-please, sir," replied John. "I forgot which quarter was for my ticket and which was for my supper."

FOUND IT HARD TO EXPLAIN

Young People Had Forgotten About That Makeup, and the Result Was Somewhat Laughable.

'Twas at the masquerade ball it happened. She was dressed as a clown and had added extra powder to make her face white. I was a minstrel gay, with bright red lips, far bigger than those of any real negro.

The music played softly and the moon was shining outside. We went out into the garden. Curtain to denote lapse of time.

We returned after a time. Jack saw it first. I guess, then told his neighbor, and soon they were all laughing. We wondered till Jack brought us a mirror.

My lips had turned to a very light red and, around her mouth, the more conspicuous because of her white face, was a red line, the size of my lips.

Embarrassed? You tell 'em.—Exchange.

Far-Away Religion.

The Mount Moriah African M. E. church had a new minister. In the congregation was a rival exhorter, who had not been considered quite good enough for the job, but who was inclined to believe himself the superior of the new pastor. The latter selected "Character" for his first sermon topic and waxed eloquent in condemning the foibles and frailties of human nature.

Imagine how startled he was when the man who had not been "called" arose and shouted:

"Budda Johnsing, we-all hired you-all to preach de Gospel and not to expose our charactahs."—Chicago Evening Post.

HONDO TESTIMONY.

Home Proof, Here, There and Everywhere.

When you see Doan's Kidney Pills recommended in this paper you most always find the recommender a Hondo resident. It's the same everywhere—in 3,800 towns in the U. S. Fifty thousand people publicly thank Doan's. What other kidney remedy can give this proof of merit, honesty and truth? Home testimony must be true or it could not be published here. Read this Hondo recommendation. Then insist on having Doan's. You will know what you are getting:

B. H. Robinson, carpenter, says: "Several years ago I was troubled with my kidneys. I had to get up about three or four times at night to pass the kidney secretions which were scalding and highly colored. I had dizzy spells and black specks would appear before my eyes. My back ached and I had sharp pains in the region of my kidneys. A friend told me of Doan's Kidney Pills, so I got a box. That one box of Doan's regulated my kidneys and my back never aches now."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Robinson had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

Sweet (!) Sounds Made by British Flier More Than Jungle Beasts Were Willing to Face.

Lieut. G. Garrod of the Royal Flying corps, who has reached Cape Town after some terrible experiences in East Africa, tells a strange story of his adventures.

He went to bomb a German ambush on the Rufiji river, but had to come down in a bush, breaking his propeller and landing in a bog. It was four days before he found his way through a region infested with wild animals and was rescued by natives. He had covered about a mile when he was confronted by an ugly black animal with vicious tusks. It was dusk and he climbed a tree to pass the night.

"I opened my eyes," he writes, "and saw something like two green electric bulbs about 30 feet from my tree. They moved in a circle, and for 45 minutes my eyes never left them. The tension was unbearable. I wanted to scream, but instead I burst out with 'The Admiral's Broom,' and in a full-throated bass I rolled out the three verses. No applause, but a reward—the leopard slunk away. I went through my repertoire. I laughed as I finished 'Two Eyes of Gray.' It seemed so ridiculous.

"Then I got on two hymns, remembered four verses of 'O God, Our Help in Ages Past,' and sang the amen, too."

After this the lieutenant started his big trek, narrowly escaping crocodiles, and swimming seven or eight rivers. His only means of defense was his nail scissors.

Melancholy Duty.

A visitor observed that the little girl of the house was eating some new kind of cereal food. As she seemed to evince a melancholy interest in the preparation the visitor asked: "Do you like it, Mary?"

"Not specially," replied the youngster sadly.

"Then why do you eat it?"

"I have to," was the grave answer. "Our grocer has promised to give a pair of skates for every five packages we buy, and it's got to be eaten every morning."

Don't let your children suffer. If they are fretful, peevish, puny or cross, give them Hollister's Rocky Mountain Tea—a harmless but safe laxative for children. 35c. W. H. Windrow.

Small Cars—and the Declining Cost of Tire Mileage

You are aware, of course, that during the last ten years, Goodyear has been able steadily to increase the amount of mileage built into its tires.

Do you realize, also, that this increase has been accomplished without extra cost to the user—that Goodyear Tires are priced no higher today than in 1910?

In no tire in the Goodyear line is the declining cost of mileage more evident than in the present 30x3-, 30x3½- and 31x4-inch size Goodyear Tires made especially for small cars.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Station for Goodyear Tires—get the exceptional worth and endurance that Goodyear builds into them.

30 x 3½ Goodyear Double-Cure Fabric, All-Weather Tread \$23.50
30 x 3½ Goodyear Single-Cure Fabric, Anti-Skid Tread \$21.50

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protection is available? \$4.50

The Price of your Cotton

Is something you are very much interested in, SOUTHLAND FARMER does not control the price of your cotton, but it does tell you all about

The American Cotton Association.

The Texas Division is now being organized under D. E. Lyday, general manager and E. F. Shropshire, secretary, and a general committee of leading farmers, bankers and business men of the State, all vitally concerned in seeing that highest possible prices are secured by the farmers who grow the cotton.

All other cotton states have already been organized. The value of the work for the season of 1919, when there was only a general organization, is shown by the statement of the leading banker of Texas, that the organization enabled the cotton growers to get \$100,000,000 more for the 1919 crop than they would have received without such an organization.

With a complete organization of 100,000 cotton growers in Texas, and 500,000 in all the South, what will its work be worth to YOU? To TEXAS? To the SOUTH?

SOUTHLAND FARMER

Gives you fullest information about this great movement, not only in Texas, but in all the cotton states. Isn't it worth while to you to keep in close touch with this great movement, and to find out how you can help it along?

The American Cotton Association is just one feature of SOUTHLAND FARMER, a farm paper that deals with the big questions of the day in a big way.

Editorial Comment.

Two pages in each issue, stuff straight from the shoulder, you will always read first when you come to know SOUTHLAND FARMER for what it is,—the most outspoken farm paper published today anywhere in the United States.

Of course the very best expert information about making your crops, caring for your livestock, and other things that have to do with the daily work of the farmer and his wife are to be found in its columns.

Mailed twice a month, 1st and 15th,
